Dear :

Thank you for the opportunity to make comments on Representative Terry Haskins, with whom I worked on several very controversial issues. During that, I found Terry to be very passionate and very dedicated to his principals and his positions. At the same time, Terry was always willing to listen to other perspectives with respectfulness and honor.

Terry and I worked very closely on the Video Poker Conference Committee where I enjoyed working toward a compromise to make the issue come to the forefront. This state was better for Terry Haskins being a legislator and a citizen.

I wish the very best and Godspeed to Terry, his family, and his friends.

Very truly yours,
